

The FSW

Dual Enrollment

Student

1 College Credit
FSW students receive both high school and college credit simultaneously. The average dual enrollment student earns around 9 credits per year.

2 Rigor
FSW students take part in rigorous course discussions, activities, and interactive labs to help them master course content.

3 Modality
FSW dual enrollment students can take courses at their high school, online, or at any of the 3 college campuses and 1 center.

4 Success
FSW dual enrollment students have a 93% success rate (C or higher) in their college coursework and have earned acceptances to top post-secondary institutions.

5 Atmosphere
FSW provides an independent, student-directed atmosphere that promotes student growth and development.

6 Transferability
FSW credits transfer to any Florida state college or state university making academic planning easy.

7 Savings
FSW dual enrollment students saved over \$7 million in college tuition and textbooks last year alone. On average, students save \$900 annually.

8 Time
The Florida Department of Education found dual enrollment students graduate college in 2.9 years, versus 4.3 years for traditional students.

9 Resources
FSW dual enrollment students have complete access to the college's resources, such as tutoring, advising, extra-curriculars, clubs, and special programs.

10 Exploration
FSW dual enrollment students can start earning both general education and prerequisite credits to explore and start on their career path.
